Okay, thank you Justin. I've attached a working DRAFT of the letter/w enclosure (I am still working on it) to give you an idea of where we're going (I've incorporated R3 and R5 comments) and how I've structured our response. At this time, GHG/Climate Change is near the end of the enclosure. I look forward to receiving your input. I need to give the draft to Ken for his review/changes et al on Thursday morning. Once he makes his changes et al we will forward it to you for any required HQ review. Comments are due at FERC on April 11th.

Hi Justin, Per the voice mail message I left for you earlier this afternoon: Do you have any Rover/Trunkline/Panhandle Projects DEIS specific GHGs/Climate Change comments you want included in EPA's DEIS comment letter to FERC? Please advise, thank you, Virginia
